

Supplementary Figure 2. Germ cell loss and reduced gonadal size in *Stra8*-deficient mice. (a) Gross morphology of *Stra8*-deficient (right) and wild-type (left) ovaries from 8-week-old littermates. (b) Gross morphology of *Stra8*-deficient (right) and wild-type (left) testes from 8-week-old littermates. (c-f) Photomicrographs of hematoxylin and eosin-stained sections of gonads, all from 8-week-old animals: (c) wild-type ovary, (d) *Stra8*-deficient ovary, (e) wild-type testis, and (f) *Stra8*-deficient testis.
